HIGHEST QUALITY BULBS
GROWN IN THE HEART
OF THE CORN BELT

LEUCHTENBERG'S GLAD
GARDENS
R.F.D. #2
BLOOMINGTON
ILL.

GREETINGS

Again it is my pleasure to extend my sincere thanks and best wishes to my many Glad fans for all the fine orders received in the past. Also for the many cards and letters of comment on the high quality and results obtained from our bulbs. I am indeed indebted to you who have loaned my catalog to your friends, which have given us many fine orders.

We grow our bulbs under very rigid supervision. We use only high quality planting stock and severe roguing during the growing season and complete control of disease and insects. Our bulbs are all grown from bulblets or small planting stock on clean soil that has not had gladiolus planted on it for at least 5 years. All bulbs are planted, dug, washed, and cleaned by hand and treated with Spergon and DDT Gladiolus dust and stored in a well ventilated basement. Our bulbs are not force by excessive use of Fertilizers or over watering. A good crop of highest quality bulbs resulting.

OUR GRARENTEE We guarentee satisfaction or money back. I do mean just that. If you are not satisfied return the bulbs, and I will cheerfully refund your money. We guarantee our bulbs true to name and free of injurious insects and any visible disease. While we have not had any complaints about our bulbs, should you have any please let us know and we will do all we can to satisfy you. We cannot ggarantee all bulblets to grow. Some will germinate 100%, while otherswill hardly germinate 25%. We cannot guarantee the crop you will harvest as this is beyond our control.

READ THIS BEFORE ORDERING. All bulbs are post paid except the wholesale list. Due to the increase of parcel post rates, we ask you to try and make your order at least \$3.00 IF AT ALL POSSIBLE. Cash must accompany order by personal check, money order, or bank draft. PLEASE DO NOT SEND STAMPS OR CURRENCY. As your order might get lost and we could be blamed and we don't want this to happen. We acknowledge your order as soon as we recevie it. If you do not receive an acknowledgement within 10 days, write us as maybe we didn't receive your order. All stock is offered subjet to stock on hand and prior sales. Our bulbs are all grown in McLean County by us. We do not get bulbs from other growers to fillyour order without your permission. Where bulblets are listed by the package, it will contain 50 to 100 depending on the variety. We give good value. We have good stock of most varieties, Some are bound to be sold out before spring, so to avoid dissapointment ORDER EARLY.

INSPECTION Our bulbs are all carefully inspected at digging time, and

again when cleaned and graded. They are inspected in the field and storage by an AUTHORIZED STATE INSPECTOR. A certificate of inspection accompanies each order. We fill all orders in the order they are received.

EXTRAS We always put in some extras for you to try, we would appreciate it very much if you will mention a few you would like, we will include them if possible.

BULB SIZES. Gladiolus bulbs are graded in 6 sizes. No.1- $1\frac{1}{2}$ in. and over No.2- $1\frac{1}{4}$ - $1\frac{1}{2}$ in. No.3- $1\frac{1}{4}$ in. No.4- $3/4$ -1 in. No.5- $\frac{1}{2}$ - $3/4$ in. No.6-under $\frac{1}{2}$ in. No. 1 & 2 are large, No. 3 & 4 are medium, No. 5 & 6 are small. We ship the larger size in each class as long as they last. If medium bulbs are ordered we ship size 3, so if you get 2 sizes, it means we have run out of the larger size.

With each order we send a complete culture leaflet prepared by the North American Gladiolus Council. By following directions in this leaflet you should be able to grow outstanding spikes. The descriptions on varieties are as we see them in our fields. I am not reflecting on no one if I condemn a variety that doesn't mean it won't do good for you. It's a known fact that some varieties do better in some localities than in others. The price of the bulb has nothing to do with the performance or the quality. It means that stocks of lower price varieties are larger than the higher priced varieties.

TO THE HYBRIDIZER . We are always looking for better varieties to list which prove good in our locality. I am willing to try out your seedlings and report to you on there performance. I will return all your stock at your request. If you wish to try any of mine, I will be glad to send you a few bulbs. But I won't have any this spring due to the weather conditions. We do however look forward to a better season this year. You are always welcome to visit our fields at anytime. We have many new varieties and seedlings on trial which are always interesting to see. We live 3 miles South East of Bloomington, Illinois. We have directional signs on U. S. 150. - $1\frac{1}{2}$ miles South East of Bloomington, Illinois. Follow the sign and it will bring you to our place. We have had much pleasure in meeting many Flower Lovers, here and at the Shows in the past and we look forward in meeting many more in the future. The over 100 degree hot-dry weather was felt at all the Shows we attended. There were days and days of high temperature that gave us many poor quality blooms. The attendance at the shows was cut nearly 75%. We discarded quite a few varieties that were too weak, so we weeded them out to make room for the better performing ones. Although we did however raise exceptionally high quality bulbs.

ALL-AMERICAN GLADIOLUS SELECTIONS FOR 1956

APPLEBLOSSOM(Ralph Baerman, Carl Fischer)460-56-70.(Beauty's Blush X Rose Charm)Patent Applied for.A gladiolus of the utmost delicacy of coloring,the predominating hue being snowy white with a faint touch of cream in the throat and an exquisite flush or corona of cool rose pink at the edges of the petals. Up to 8 or 10 trimly tailored florets, about 5 inches in diameter and of very heavy substance, are open at a time on spikes up to 5 feet tall. A vigorous, easy grower that performs excellently with only average culture. Appleblossom will give you a new conception of gladiolus beauty when it blooms in your garden.

ROYAL STEWART(Ralph Fommert)450-56-75.(Red Charm X Unnamed Seedling)Plant Patent No. 1339. A truly remarkable new gladiolus variety that has been widely acclaimed for its consistently fine performances under an extensive test program throughout the United States and Canada. The lightly

ruffled florets are 5 inches in diameter and are of good substance. They are a clear light red and the long flowerheads frequently carry up to 12 flowers open at one time. Growth is vigorous and healthy, with the total height of the plants running about 5 feet. On the occasions when it has been exhibited at gladiolus shows, Royal Stewart has proved to be an outstanding winner of top awards.

The right to reproduce the All-America varieties for resale purposes or to sell cut flowers is reserved.

Retail Price: (both varieties) Large bulbs only - - #1 size to the extent possible - - will be sold.

\$1.00 each \$2.50 for 3 \$4.75 for 6 (3 Appletossom and 3 Royal Stewart or 6 of either)

THE FOLLOWING are our customers own comments and how satisfied they are with the purchase and results from OUR BULBS.

MICHIGAN: " My Bulbs I got from you last year were lovely, and they done just wonderful for. I was well pleased with them. I am ordering more this year." Mrs. A. Burgess.

ILLINOIS. " Received the bulbs today and was pleased the way you filled my order. Thanks for the overcounts- they are always welcome." Viola Gillfillian.

MISSOURI: " The bulbs you shipped in my order were of excellent quality and I want to thank you for the extras. Will certainly increase the size of my order next season. " K. S. Hart.

ILLINOIS: " I was so pleased with the bulbs that I bought from you last year that I am ordering more this year." Mrs. L. V. Morrison

MICHIGAN: " ILLINI WHITE is a dandy - my thanks to you for the bulbs. Bulbs are nice too. " Jay Dittman.

MINNESOTA: "Many thanks for the nice bulbs and imagine my surprise when I found that to each named bulb there was an over-count and if this alone was not enough you sent free ones besides. I have ordered bulbs for many years and this is the first time an over-count has ever happened to me. " Mrs Donald Teska.

NEW JERSEY: " Your name has been given to me by Mr Edward Austin. Last year he bought some glads that I beleive he secured from you and he gave me some to try. They were stunning, I am anxious to get more. Will you please send me your catalog." Muriel C. Macdowell.

NEW YORK: " I received the bulbs in fine condition and was well pleased with them. Again I will say they were among the cleanest and nicest bulbs I have ever received." Glenn D. Howland.

ILLINOIS: " Received the order of Glad Bulbs today from you. It has been a pleasure the last three years to receive such generosity, both in extra bulbs and over-counts, as well as such healthy stock. I certainly won't hesitate to give your name to my friends." Dennie Forein.

NEW YORK: " Just wanted to tell you I was very satisfied with the bulbs I purchased from you last year. Also you were most generous in your extra bulbs. " Alfred E. Smith.

MINNESOTA: " I had wonderful results with the stock we got from you in 1954. Dieppe, Lady Anne, Nila, were exceptionally good! Most all the varieties did better than their best, thanks to you. " Theo. Hudson.

OUR WHOLESALE LIST FOR 1956

SHIPPING NOTICE

We can ship your bulbs at anytime you wish, but would advise to hold orders until March 15 th. except orders from the Southern States, they can be shipped most anytime when wanted. It isn't as safe to ship bulbs early nowadays by Parcel Post as it was in the olden days due to most Parcel Post going by unheated Mail Trucks. Please mention approximate shipping date you would to receive your bulbs. We watch the weather forecast at shipping time and ship accordingly.

Please note on page 15 at the bottom of the page. I simply forgot to put the price (3 Large for 25¢) I left the number 3 off. This is for the Standard Variety List.

LEUCHTENBERG'S GLAD GARDENS

Leuchtenberg is pronounced as Litz' en' berg. We put this in our catalog for people so they could pronounce our name easier.

We would like to know if our " Glad Grower " Friends would be interested in a fall Bulb List. It would be sent out at bulb digging time. If we have enough requests we will issue one. Looking forward to a better growing season.

head. Propagation of bulblets is fast, although they are small they germinate well.

2 L.-25 3 M.-25 4 S.-25 Bts.pkg.25
ROSITA(Woods)563-52-85. Cerise-rose with lighter picotee edges and deeper throat. May be called the Improved Chaumony. Will open up to 9 or more very large wavy, fluted florets on a tall spike.

1 L.-25 2 M.-30 3 S.-30 Pts.15-25
ROSY FUTURE(Fletcher)464-51-85. Deep rose that will open 5 to 6 nice $4\frac{1}{2}$ inch florets on a medium tall spike. A strong healthy grower.

2 L.-25 3 M.-25 4 S.-25 Bts.pkg.25
ROYAL ROBES(Lins)354-47-80. Dark red, almost a black red. Will open 6 or more ruffled florets of heavy texture, with 10 or more showing color. A very nice dark red.

2 L.-30
ROYAL TREAT(Lins)452-52-82. Deep rosy-maroon with large round ruffled florets. Opens 7 to 8 florets with 10 or more showing color. Production of bulblets excellent.

1 L.-20 1 M.-15 1 S.-10
RUFFLED DREAM(Fischer)440-55-85. A beautiful ruffled pink with a soft cream throat. Grows medium tall, although its only fault is it will misplace the bottom floret. Bulblet production is excellent.

1 L.-60 1 M.-40 1 S.-25
RUFFLED EONY(Fischer)454-53-85. Ruffled black red with a deep maroon throat. To me this is the blackest one yet. Will open 5 to 6 florets on a 16 bud spike.

1 L.-25 1 M.-20 2 S.-30
RUSTLER(Wilson)450-53-85. A medium red with a slightly deeper throat. One of Wilson newer and recent introductions that does very well.

1 L.-90 1 M.-60 1 S.-30 Bts.10-20
SAN SOUCI(K. & M.)436-51-85. Rich glowing scarlet red with a white line on the lower petal. Will open 6 to 8 well placed florets. A good increaser of bulblets.

2 L.-30 2 M.-20 4 S.-25
SCARLET TANAGER(Kleinhaus)336-54-80. A world beater for bulblet production. A brilliant lightly ruffled scarlet. Will open up to 8 well attached florets on a 20 to 22 bud spike.

1 L.-50 1 M.-35 1 S.-25 Bts.10-25
SHERWOOD(Pruitt) 570-48-80. Ruffled deep purple blending to a lighter throat. Opens 5 to 6 well placed blooms on a tall straight spike. An excellent grower.

2 L.-25 3 M.-25 4 S.-25
SILVER LUSTRE(Moses)566-51-85. A very light lavender, outer petals are slightly deeper flushed with a deeper throat mark. A sport of Eliz. The Queen, having all her good habits.

2 L.-30 2 M.-20 4 S.-25
SNOWDRIFT(Fischer)400-54-75. Heavily ruffled white, can be outstanding when well grown. Although it does not grow too uniform here, bulblet

production is excellent.

- 1 L.-50 1 M.-35 1 S.-25 Bts.10-25
SOUTHERN BELLE(Fischer)483-52-75. Sparkling pink, with a white throat.
Petals have a margin of smoky lavender on the edges. A medium tall
grower. 2 L.-30 2 M.-20 4 S.-25
SPARKS(Glass) Cream yellow with an orange scarlet feather on the lower
petals, which radiate lines of the same color. Grows tall with 7 or
more florets open. 2 L.-25 3 M.-25 4 S.-25 Bts.pkg.25
STERLING(Harris)469-50-85. A new color break in the glads. A phlox purple
with a rose feather in the throat. Grows tall, is slightly ruffled.
Will make a good commercial and exhibition variety.
2 L.-30 2 M.-20 4 S.-25
SUMMER QUEEN(Fischer)542-55-80. A large salmon pink, slightly ruffled
and good substance. Opens 8 florets on a good height plant. Bulblet
production, heavy. 1 L.-25 1 M.-15 2 S.-20
SWEET SIXTEEN(Fischer)442-51-80. A flesh toned pink, with nicely round
florets of good quality on a medium tall plant. A sport of Beauty's
Blush. Has it same fine habits.
2 L.-40
TEEN-AGER(Fair)366-52-80. Clean medium rose with just enough blue to
give it a cool effect. Large cream white throat . Opens 6 to 8 four
1/2 inch blooms. Consistent grower and bulblet germination. Very nice.
2 L.-35 2 M.-25
THE OWL(Wheeler)490-42-85. A red smoky of unusual shade. This is a novel-
ity that is different than anything else. By using a little imagination
it resembles an owl, not too tall.
2 L.-25 3 M.-25
THE RAJAH(Jack)570-51-88. Rich ruffled , reddish purple that opens 6 to
8 large florets on a tall straight spike. A rival of King David.

*** CLASSIFICATION ***

First is the name of the variety, then in parenthesis is the name of the originator. Following this is the size and color figures. The last figures dencte the number of growing days required from planting to date of blooming. The number of days to bloom is figured for large bulbs, medium kulbs usually require 5 to 7 days longer to bloom. Because of variations in climate, the number of days required for a paticular variety to bloom may vary several days. However, the listed blooming dates will give a fair idea of what to expect of a variety.

For example, the classification number of CORAL ACE is 532-52-85. The 5 means that the floret size is $5\frac{1}{2}$ inches or larger and the 32 indicates it is deep Salmon. Hence the numbers listed right after the variety name tells the size and color of the individual floret as grown from large bulbs. The N. A. G. C. size and color classification is used in our description. This method of listing gives you valuable information which you will readily note above. This classification is used mainly to help you classify varieties for show purposes.

I will appreciate it very much if you will show this catalog to your friends and neighbors who you think might be interested in gladiolus. Many of you have done this in the past and I want to thank you for it.

" A VERY SPECIAL OFFER".

To increase the membership of the ILLINOIS GLADIOLUS SOCIETY, We are making the following offer, with a \$5.00 or more cash order (which does not include wholesale items or special collections) send us \$2.00 in addition for membership of ILLINOIS GLADIOLUS SOCIETY and we will send you free of charge \$2.00 worth of bulbs of the newer varieties, our choice but we would appreciate your suggestion as to the varieties you would like. THIS OFFER GOOD FOR NEW MEMBERS ONLY. You do not have to live in the state of Illinois to be a member of the ILLINOIS GLADIOLUS SOCIETY. Your 1st publication of the NOTEBOOK would be the JUNE 1956 issue which carries the show dates. Your membership will begin July 1st. 1956 and expires June 30th. 1957.

YOUR FUTURE CATALOG.

Even though we mimeograph our own catalog in our own home, it still costs us money. We do our best to describe the varieties as we see them. We feel our catalog is reaching some who are no longer interested. However if you are interested we do want you to have our catalog, and there will be no charge for it. After receiving our catalog for 3 or 4 years, we feel you should find something interesting by then. But if no order is received, we shall find it necessary to remove your name from our mailing list. However if you are still interested, just let us know, and we will send you our catalog even though you do not send us an order.

We would appreciate if you move, to send us your new address as this is the only way you will get our catalog. Otherwise we have to put your name in the dead FILE, this is what we have to do when a catalog is returned to us. So to avoid not receiving our catalog, send us your new mailing address. Catalogs are not forwarded by the POST OFFICE.

PLEASE KEEP A COPY OF YOUR ORDER.

THE PICKS FOR 1956.

Looking forward to a good growing season.
